

Becoming An Alchemical Healing Practitioner

Those seeking certification in the Alchemical Healing art form must complete the following requirements:

- Completion of all three levels of Alchemical Healing courses with a Certified Teacher.
- Complete 50 hours of practice on clients and document it on the Alchemical Healing Logs that will be made available after completing level one.
- Once 50 hours of experience are logged your Certified teacher will take some time to review through them and book a date for evaluation exams.
 - Practice Logs to fill out are available on Nicki's website. A handwritten form is available but for ease of sharing with your mentor we request the pdf documents that can be shared digitally.

There are two components to the exam.

- 1-3 Observed Sessions with feedback from your AH Mentor.
 - Live in person if local.
 - Live online
 - Recorded Session
- An oral/written exam with questions that should be known by all practitioners.

Please note that the time taken to review the logs is free of charge and in exchange for the teachers time during exams the student will be charged the cost of a healing session.

Once the teacher feels the student is ready, a meeting is set for the oral exam.

- Once approved the student will receive a Practitioners Certificate signed by their AH mentor.

Please Note: If you have attended online classes the above is true and in addition

A Practitioner's Mentorship is necessary where you work with an AH Mentor for questions, and development.

Practitioners Mentorship options are available on Nicki's website with approved teachers.
